## Using Dashboards

### Using Dashboards

In this lab, we will learn about Creating a new dashboard and add items to the dashboard.

Follow the below steps to create a new dashboard.

1. Navigate to the **Dashboard** tab.
2. Click the **New Dashboard** button.

3. For **Name**, enter Student Dashboard.
4. For **Description**, enter Lab Demonstration Dashboard.
5. Click **Ok**.

## New Dashboard

---

Provide a name and description for this dashboard:

Name:

Description:

Share:

☐

---

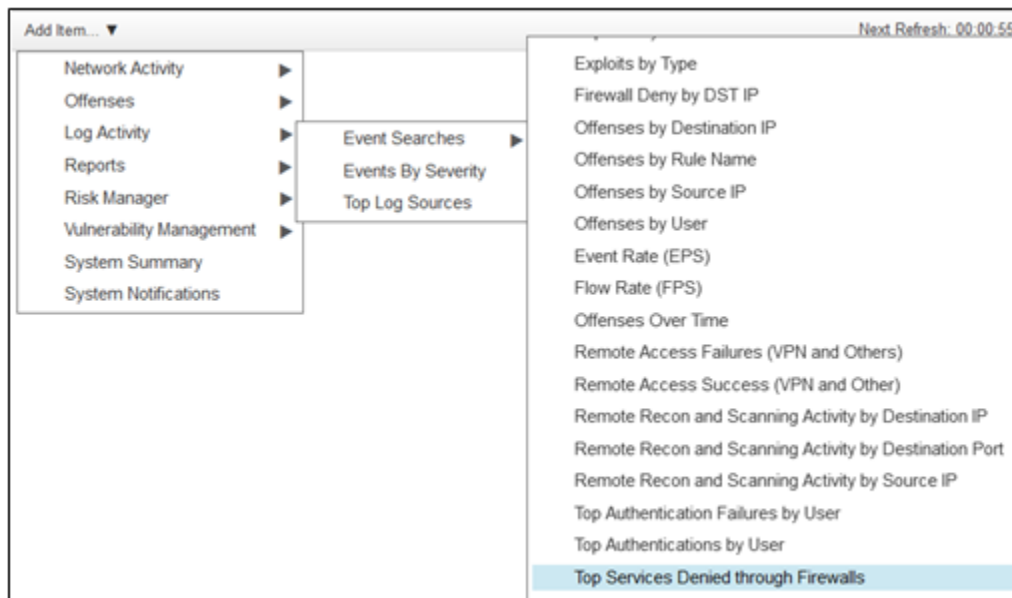

**OK** **Cancel**

6. To add items to the new dashboard, from the **Add Item** list, select the following items:

**a. Offenses > Offenses > Most Severe Offenses**

## b. Log Activity > Event Searches > Top Services Denied through Firewalls

## c. Log Activity > Event Searches > Event Rate (EPS)

7. Drag the items to an empty spot on the dashboard.

8. Click the **Refresh** icon to update the window.

9. Verify that the dashboard includes an offense item and two log events items. Depending on where you positioned the items, your dashboard looks like the below screenshot.
